Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 11 and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Fritz Isler (CH 555601).

Fritz Isler (Figure 3) discloses a connecting element for a mechanical and electrically conductive connection, comprising: an operating element having first and second plates (220) which are directed toward one another such that two conically tapering faces are arranged on respective opposite sides of the first and second plates, thereby forming two conically tapering openings with cone openings directed opposite to one another; and first and second wedges (222) respectively inserted in the two cone openings, wherein the first and second wedges can be displaced with respect to each other such that faces of the wedges drive the conical tapering faces of the first and second plates away from one another. Fritz Isler also

discloses the first and second wedges being displaced with respect to each other by a screw (not shown).

Allowable Subject Matter

3. Claims 14-16 are allowed.
4. Claim 13 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
5. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record does not teach or suggest a connecting element comprising all the features as recited in the claims and in combination with a supporting wall arranged in a central region of the connecting element; a truncated cone supported against the supporting wall; and a tensioning loop passing through the truncated cone and the supporting wall, wherein when the first and second wedges are displaced with respect to each other driving the conical tapering faces of the first and second plates away from one another, the tensioning loop is tensioned (re claims 13 and 14).

Response to Arguments

6. Applicant's arguments with respect to claim 11 have been considered but are moot in view of the new ground(s) of rejection.

Summary

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
